- Sean D. Murphy 2003-01-09

Sean D. Murphy's wide-ranging and in-depth 2002 survey of U.S. practice in international law in the period 1999-2001 draws upon the statements and actions of the executive, legislative and judicial branches of the U.S. government to examine its involvement across a range of areas. These areas include diplomatic and consular relations, jurisdiction and immunities, state responsibility and liability, international organizations, international economic law, human rights, and international criminal law. At the time of its first publication this summary of the most salient issues was a central resource on U.S. practice in international law. The volume contains extracts from hard-to-find documents, generous citations to relevant sources, tables of cases and treaties, and a detailed index. **1999 - Erik E. Hanberg 2022-01-01**

What if the year 1999 repeated? Forever. Will's first time through 1999 was a pretty good year. And the second time was even better. But as the year 1999 continues to repeat, and as the world realizes that they might be trapped in the year 1999 forever, Earth's civilizations start to unravel. What is causing the time loop? Why is the world stuck in 1999? Is it the Y2K bug? Or something else entirely. When Will discovers the shocking truth causing the global disaster—and his own unwitting role in it—he will be asked to give up everything in order to save the world and get humanity back on track to the Year 2000. Fans of time travel and “time loop” stories will love Hanberg’s “sleek and fast” style in this mind-bending novella.

**China Review 1999 - Chong Chor Lau 1999**

China has made great success in improving its foreign relations with other countries in 1998. Jiang Zemin's visit to the United States and Japan clearly showed that China would continually uphold its open-door policy and economic reform. It is significant to most economic analysts that China has still recorded 7.8% economic growth under the Asian

financial crisis. *China Review 1999*, the ninth volume of this series, is an expert survey of China's major sectors of interest, which critically summarizes the development of the previous year in core chapters covering politics, the economy, and social change. This volume has several in-depth presentations on political and social-economic issues, such as the Sino-U.S. relations, Mainland-Taiwan relations, the economic performance of 1998 -- all major concerns to those interested in the development of the People's Republic. Additional studies describe rarely featured areas of Chinese society.
