Robotic Sailing 2013 - Fabrice Le Bars 2013-08-15

An autonomous sailboat robot is a boat that only uses the wind on its sail as propelling force, without remote control or human assistance to achieve its mission. This involves autonomy in energy (using batteries, solar panels, turbines...), sensor data processing (compass, GPS, wind sensor...), actuators control (rudder and sail angle control...) and decision making (embedded computer with adequate algorithms). Although robotic sailing is a relatively new field of research, several applications exist for this type of robots: oceanographic and hydrographic research, maritime environment monitoring, meteorology, harbor safety, assistance and rescue in dangerous areas... Over the last decade, several events such as the Microtransat challenge, the WRSC/IRSC and SailBot have been set up to stimulate research and development around robotic sailing. These proceedings cover the current and future academic and technology challenges raised by the development of autonomous sailboat robots presented at the WRSC/IRSC (World Robotic Sailing Championship/International Robotic Sailing Conference) 2013, in Brest, France, 2-6 September 2013.

Volume of the United States Tax Court Reports containing case abstracts and opinions of the court regarding cases between July 1, 2013 December 31, 2013. Cases in each volume are listed in the prefatory table. The United States Tax Court is a federal trial court of record established by Congress under Article I of the U.S. Constitution, section 8 providing (in part) that Congress has the power to "constitute Tribunals inferior to the Supreme Court. "The Tax Court specializes in adjudicating disputes over federal income tax, generally prior to the time at which formal tax assessments are made by the Internal Revenue Service. Though taxpayers may choose to litigate tax matters in a variety of legal settings, outside of bankruptcy, the Tax Court is the only forum in which taxpayers may do so without having first paid the disputed tax in full. Parties who contest the imposition of a tax may also bring an action in any United States District Court, or in the United States Court of Federal Claims; however these venues require that the tax be paid first, and that the party then file a lawsuit to recover the contested

amount paid (the "full payment rule")." The Telegraph Book of the Ashes 2013 - The Daily Telegraph 2013-09-26
This summer's Ashes was another unforgettable instalment in the oldest and greatest rivalry in international sport. From the thrilling denouement at Trent Bridge, when Australia came within 19 runs of an incredible victory, to the stunning spell of hostile fast bowling from Stuart Broad in Durham and England's frantic run-chase in the gloom at the Oval in pursuit of an historic 4-0 series victory, the series was never less than engrossing. And - as always in an Ashes summer - there was as much intrigue off the field. David Warner made himself the English public's favourite pantomime villain by taking a swing at Joe Root before a ball was bowled, controversy raged over the standards of umpiring and the use of the Decision Review System while Darren Lehmann stoked the fires ahead of the return series Down Under with his infamous radio rant at Broad. The Daily and Sunday Telegraph's unbeatable team of cricket writers were present through the 2013 series to deliver the definitive account of events. Derek Pringle, Paul Hayward, Scyld Berry, Simon Hughes, Jim White, Steve James and Nick Hoult dissected events with forensic detail, and former captains Michael Vaughan and Geoffrey Boycott, together with Australian spinning legend Shane Warne, set the agenda with their hard-hitting columns. So, as you tick off the days to the first Test in Brisbane, relive the splendour of Ian Bell's three centuries, Ashton Agar's record-breaking debut, Root's stunning innings at Lord's and the spectacular bowling of Graeme Swann and James Anderson, as chronicled in the pages of the Daily and Sunday Telegraph.
