*Fostering Aberrations* - Kaija E Wuollet 2010

The economy is suffering. The job market is in a lull. Qualified college graduates are not able to find jobs. Many homes are in foreclosure, the largest individual investment for the average North American family. During an economic lull, entrepreneurial spirit is rekindled and many new business pursuits develop. Individuals explore means to realize a vision, often after losing a job, or simply an opportunity of last resort. Traditionally, the city square was where one would take his goods to sell. The public urban space was a place to try new pursuits and test ideas. The North American city lacks public space. The city square of European cities served as a connection between the public and the private realms of an urban condition. The public

space was stage set for the performance of individuals and business owners. During the week, an ephemeral market engaged the public space where merchants brought their product and the public purchased goods. In addition to economic trade, it was a place of daily life for the public, and a networking interface for business owners. The public space which dominates this realm in North American cities is the street. The multifunctional nature of an urban streetscape, serving as a transitional space, inhibits the blurring of the public / private which traditionally was a symbiotic relationship. Therefore, fostering aberrations between the public and private using architecture as a medium, would benefit the urban palimpsest of interaction and strengthen the economic foundation for individual

business owners. 'In the urban composition, everything must express as faithfully as possible the particular life of the collective organism.' -Aldo Rossi. Due to the limited resources available to entrepreneurs, in the twenty-first century, the Internet has become the new public space. With technological advancement, having limited resources has inspired many entrepreneurs to rely on the Internet to develop networks and do business. The role of the architect should amplify and extend beyond its traditional place. By using the Internet as a tool and developing a networking interface in the direct local area, the programmatic needs would grow from within rather than relying on clients to make a contact when they find it necessary. Architects must develop an interface locally, while simultaneously working at a global level to enhance the practice. The local presence will establish credibility and help the architect survive economic downturns. In a

market where the pulse of the entrepreneurial spirit is becoming an important source of economic growth, architecture which responds to entrepreneurial needs can not only serve as a catalyst for economic development, but is an opportunity to create architectural and urban growth. Mediating between the micro and macro and exploring architectural design through an urban and entrepreneurial lens, the architect has a more stable foundation while cultivating an urban landscape, creating a more viable condition for growth.

*Washington in the Great War* - Peter Welsh 2014-11-30

How the experience of war impacted on the town, from the initial enthusiasm for sorting out the German Kaiser in time for Christmas 1914, to the gradual realization of the

enormity of human sacrifice the families of Washington were committed to as the war stretched out over the next four years. A record of the growing disillusion of the people, their tragedies and hardships and a determination to see it through. ??The Great War affected everyone. At home there were wounded soldiers in military hospitals, refugees from Belgium and later on German prisoners of war. There were food and fuel shortages and disruption to schooling. The role of women changed dramatically and they undertook a variety of work undreamed of in peacetime. Meanwhile, men serving in the armed forces were scattered far and wide. Extracts from contemporary letters reveal their heroism and give insights into what it was like under battle conditions.

*Cleburne County and Its People*

- Carl J. Barger 2008-05-13

*Cleburne County and Its People* is a historical account of Cleburne County and the men and women who made it what it is today. These men and

women were as diverse as the Ozark Mountain's rock-laden landscapes. The pioneers who settled Cleburne County were as strong as the land, of hardy pioneer stock, and bold in thought and action. They were shrewd, strong-willed individuals who brought staunch beliefs and strong disciplines with them and settled in an untamed wilderness which became Cleburne County. Cleburne County and Its People has drawn from the past and the present--chronicling the lives of settlers facing hardships and tragedies, discovering profound beauty, mastering vast natural resources, and formulating democratic ideals. The stories in this book are honest interpretations of the human experience intertwined with the old and the new and adding exciting dimensions to the county of Cleburne and the state of Arkansas. The objective of Carl J. Barger, the compiler of *Cleburne County and Its People*, is to preserve a history of the county of his birth for students, historians,

and all of the citizens of Cleburne County. Carl J. Barger is the author of Swords and Plowshares, a Civil War love story, and Mamie, an Ozark Mountain Girl of Courage, a story of the Ozark Mountain people, set in Cleburne and Van Buren Counties.

*Bad Moon* - Todd Ritter

2011-10-11

On the same night that Neil Armstrong became the first man to walk on the moon, ten-year-old Charlie Olmstead jumped on his bike to see if there was some way he could get a better look. It was the last anyone ever saw of him. After Perry Hollow Police Chief Jim Campbell found Charlie's bike caught in the water above Sunset Falls, he assumed the worst. Everyone did—except Charlie's mother. Years later, Eric Olmstead—now a famous author and Charlie's younger brother—has come back to Perry Hollow to bury his mother and fulfill her last request: Find Charlie. To do so, he goes to the current police chief, his former sweetheart, Kat Campbell, who happens to be Jim Campbell's daughter. Together they soon discover that Eric's mother was convinced Charlie was kidnapped, and that finding him—whether he was dead or alive—was her secret obsession. While she never succeeded, she did uncover

clues that suggested he wasn't the only boy across Pennsylvania to vanish into thin air during that time. The haunting story of a boy missing for forty years, and of a small town that found lies easier to believe than the truth, explodes into the present in *Bad Moon*, Todd Ritter's excellent follow-up to his acclaimed debut.

[Who is Charlie?: Xenophobia and the New Middle Class - Emmanuel Todd 2015-10-02](#)

In the wake of the attack on the offices of Charlie Hebdo in Paris on 7 January 2015, millions took to the streets to demonstrate their revulsion, expressing a desire to reaffirm the ideals of the French

Republic: liberté, égalité, fraternité. But who were the millions of demonstrators who were suddenly united under the single cry of 'Je suis Charlie'? In this probing new book, Emmanuel Todd investigates the cartography and sociology of the three to four million who marched in Paris and across France and draws some unsettling conclusions. For while they claimed to support liberal, republican values, the real middle classes who marched on that day of indignant protest also had a quite different programme in mind, one that was far removed from their proclaimed ideal. Their deep values were in fact more reminiscent of the most depressing aspects of France's national history: conservatism, selfishness, domination and inequality. By identifying the anthropological, religious, economic and political forces that brought France to the edge of the abyss, Todd reveals the real dangers posed to all western societies when the interests of privileged middle

classes work against marginalised and immigrant groups. Should we really continue to mistreat young people, force the children of immigrants to live on the outskirts of our cities, consign the poorer classes to the remoter parts of the country, demonise Islam, and allow the growth of an ever more menacing anti-Semitism? While asking uncomfortable questions and offering no easy solutions, Todd points to the difficult and uncertain path that might lead to an accommodation with Islam rather than a deepening and divisive confrontation.

Captured by the City: Perspectives in Urban Culture Studies is a collection of eighteen essays on urban places, people, and phenomena. In it, cities in North America, Europe, and Asia offer themselves as dynamic encounters to those who study them and to those who live in them on a daily basis. Different disciplines- Sociology, Anthropology, Performance Studies, Architectural History, Linguistics, Media Studies, Documentary Poetics, to name just a few- intersect here to help shape a unique field of inquiry- that of Urban Culture Studies. This multi-perspectival approach grants us a more wholesome understanding of how we inscribe cities and how cities inscribe us in return: as we plan, inhabit, remember them- in reality or in dreams.
