

Peter Saville

Lost & Found - British Council 1999

For several years, the British design scene has been a powerhouse of creativity and the British Council has now launched an exhibition which will tour continental Europe to celebrate young British design. This catalogue documents the very latest -- in part unpublished -- work of 40 designers ranging from famous names like Tom Dixon, Jasper Morrison, John Galiano, Peter Saville and Tomato to up-and-coming British talent. The book includes furniture, fashion, jewellery and graphic design, in addition to electronic media. Designed by August Media Ltd in London, where Stephen Coates is Art director, the book is an attractive object in itself.

From Obscurity to Clarity in Psychometric Testing - Peter Saville 2016-06-17

The field of psychometrics has a long and varied tradition across the social sciences. A range of academics have sought to understand human consciousness more fully by statistical testing our abilities, personalities, attitudes and beliefs. But perhaps the area where psychometric techniques have had most impact on contemporary society is in employee recruitment, where a range of psychometric tests have become commonplace. Professor Peter Saville is one of the pioneers of adapting psychometric testing to the field of occupational psychology and human resource management. In a career of nearly 40 years, his work has been adopted by hundreds of public and private organizations, assessing the suitability of prospective candidates through a range of questionnaires and tests. In this anthology of his work, including both keynote conference address and journal papers, Saville provides a masterly overview of the field of psychometrics, and the key issues and questions that it raises. An ideal companion for any student or researcher of HRM, occupational or organizational psychology, or applied psychology in general, Peter Saville's selected works represent the thinking of one of the most influential psychologists of our time.

Art, Fashion and Work for Hire - Thomas Demand 2008-08-15

Thomas Demand is known for his large-format photographic work. As the head designer of Dior Homme, Hedi Slimane revolutionized men's fashion. He is also known for his work as an artist. Peter Saville wrote design history with his album covers for British bands such as Joy Division, New Order and Pulp, and with his work for fashion designers. Demand, Slimane, and Saville have all gone beyond the limitations of a single type of media to realize their ideas and visions. They discuss their work and motivation in a conversation in Berlin with the curator Hans Ulrich Obrist and the editor Cristina Bechtler, and also share their views on new forms of creativity, cross-border endeavors, fashion, architecture, photography, political art and many more subjects.

Factory Records - Matthew Robertson 2006

This is the definitive overview of the artwork of the seminal Manchester-based Factory label, covering its iconic record sleeves, posters, ephemera, venues and packaging. After a foreword by the late founder of Factory, Tony Wilson, an introductory essay discusses the label's role in bringing design to the mainstream. Thereafter the book is organized as a generously illustrated catalogue, arranged by the famous Factory reference system. "Factory Records", as part of the story, has been given its own reference number - Fac 461 - making it a collectable item in its own right.

Peter Saville - Editions: Prints and multiples - Peter Saville 2019

One of the most important British graphic designers and art directors working today, Peter Saville first came to prominence in the late 1970s when he designed record sleeves for Factory Records, most notably for Joy Division and New Order. Saville's enviable list of clients have

included Roxy Music, Ultravox, Peter Gabriel, Pulp, Suede, Whitechapel Art Gallery, The Pompidou Centre, Yohji Yamamoto, Jil Sander, Christian Dior, Alexander McQueen, Stella McCartney, Mandarin Duck, Givenchy, Selfridges, EMI and Adidas. This work draws on much of his existing seminal graphic output to create variations on themes and works.

Peter Saville - Peter Saville 2009

The flat-pack plinth has a direct correspondence with designer Peter Saville's observation that it all looks like art to me now. When Saville exhibited his Estate at the Migros Museum, Zurich, in 2005/06, he deliberately presented the last room as a work in progress. Included were objects that he knew did not have contemporary artistic currency, but objects that somehow still seemed pertinent materials of an idea. Not wanting to present these objects as artworks, Saville had laid them out on tables, apart from one, an exceptional plastic bird, which he chose to place on a plinth. It was in this action that Peter appreciated the transformative energy of the plinth, an energy he felt others were ready to share. Saville has now designed and fabricated a white cardboard flat-pack plinth. Made of white centred display board, and in a prototype edition of 200, the plinth replicates those conventionally made from wood. He has invited 22 other artists, including Richard Hamilton, Peter Blake, Robert Longo, Wolfgang Tillmans, Brian Eno and Jeremy Deller, to place anything of their choice on a plinth. Saville's flat-pack plinth recognizes the public's own ability, and transfers to them the power of curatorial decision, allowing anyone now to pass judgment on what is worth looking at. It acknowledges a changing audience, and their will to consume art. The flat-pack plinth is their DIY accessory in a time when culture has briefly stopped to let millions of people on board.

Designed by Peter Saville - Peter Saville 2003

Peter Saville is arguably the most influential graphic designer of his generation. Best known for his seminal record covers for Joy Division and New Order and as the co-founder of legendary independent music label Factory Records, Saville has created designs for fashion, advertising, and art. The intensity and timelessness of his work has ensured his cult status for twenty-five years. His far-reaching designs and character prefigure popular culture: fresh and seemingly familiar, he continues to transform the commonplace into the desirable. "Saville's method, then as now, lies in fixing on a style or look slightly ahead of popular taste. He achieves the sort of ambiguity and complexity of resonance more usually associated with art," writes Rick Poynor in his essay. This first book on Saville's work chronicles his prolific career from 1978 to the present. It includes a comprehensive interview by Christopher Wilson as well as essays by style writer Peter York, music critics Paul Morley and Miranda Sawyer, and design critics Rick Poynor, Emily King, and Peter Hall. Graphic designers, music lovers, and fashion followers everywhere will welcome this visually rich overview of Peter Saville's work and art.

Excerpt: "Blue Monday" is a single released in 1983 by British band New Order, and later remixed in 1988 and 1995. The song has been widely remixed and covered since its original release, and became a popular anthem in the dance club scene. At nearly seven-and-a-half minutes, "Blue Monday" is one of the longest tracks ever to chart in the UK, and is the biggest-selling 12" single of all time. Despite selling well it was not eligible for an official gold disc because Factory Records was not a member of the British Phonographic Industry association. However, the Official UK Chart Company (UK Singles Chart) has estimated its total UK sales at over one million. In the all-time UK best-selling singles chart, published in 2002, "Blue Monday" came 76th. The song begins with a distinctive semiquaver kick drum intro, programmed on an Oberheim DMX drum machine. Gillian Gilbert eventually fades in a sequencer melody. According to band interviews in *NewOrderStory*, she did so at the wrong time, so the melody is out of sync with the beat; however, the band considered it to be a happy accident that contributed to the track's charm. The verse section features the song's signature throbbing... [Lovegrove and Brown, Peter Saville Associates, Peter Keene - Galerie Projets Villeurbanne, Rhône 1987](#)

Peter Saville Estate, 1-127 - Peter Saville 2007

The young and handsome Dorian Gray is charmed and seduced by the philosophies and wit of the hedonistic Lord Harry Wotton, who's devil may care lifestyle dazzles Dorian beyond his senses. But it is Wotton's views on the fleeting nature of youth and beauty which strike deepest in Gray's soul. This leads him to curse his portrait, a daily reminder of his beauty that will plague him when it has faded from his face and swears to sell his soul to keep his youth. He falls deeper and deeper into the world of Harry Wotton, a world without limits and consequences.
